

WHY MALIBU

INDUSTRY BEST RE-SALE VALUE

Speak with any repeat Malibu owner and they'll tell you they buy a Malibu Boat 100% confident of a strong resale price when it comes time to sell or upgrade. Malibu's retain their value year after year and continue to out-perform any other brand.

AUSTRALIAN BUILT

Malibu Boats are proudly handcrafted by Australians for Australians in Albury, NSW. Because of this you're protected from fluctuating currencies, overseas shipping and non-value adding items that can add tens of thousands to the purchase price of imported boats.

An Australian based factory also means your dealer has direct access to the factory before, during and after your boat is built, as well as super-fast access to a massive warehouse full of parts should you ever need them (some as far back as 1995!).

SUPERIOR SURF TECHNOLOGY

Malibu's Integrated Surf Platform™ (ISP) includes proprietary technologies that generate the longest, most perfect peeling waves – customisable by size, shape and length to suit the capabilities of every rider.

Power Wedge II™ - Bigger and more versatile than ever before, the new Power Wedge II™ includes a "lift" feature that enables the driver to get a fully loaded boat on plane much faster. Power Wedge II™ has 6 adjustment settings to customise the wake size for individual rider preferences, with the max setting equivalent to carrying an extra 450kg. It all happens at the tap of the driver's finger on the Command Centre or the Malibu Surf Band.

Surf Gate™ - Nothing compares with Surf Gate™. Surf Gate™'s high-speed hydraulic actuators let you quickly shift the wave from side to side for regular or goofy foot styles. Surf Gate™ creates the most dynamic playground for wake surfing possible. No competitor comes close to offering the same adjustability range.

Hard Tank Bow Ballast - A popular option on all Wakesetter models, the hard tank bow ballast adds weight to the bow of the boat without the need for onboard fat sacks. Hard tank bow ballasts are a win for everyone - clear driver visibility as the bow stays low on the water, passenger seating and comfort is maximised and riders enjoy the perfect wake.

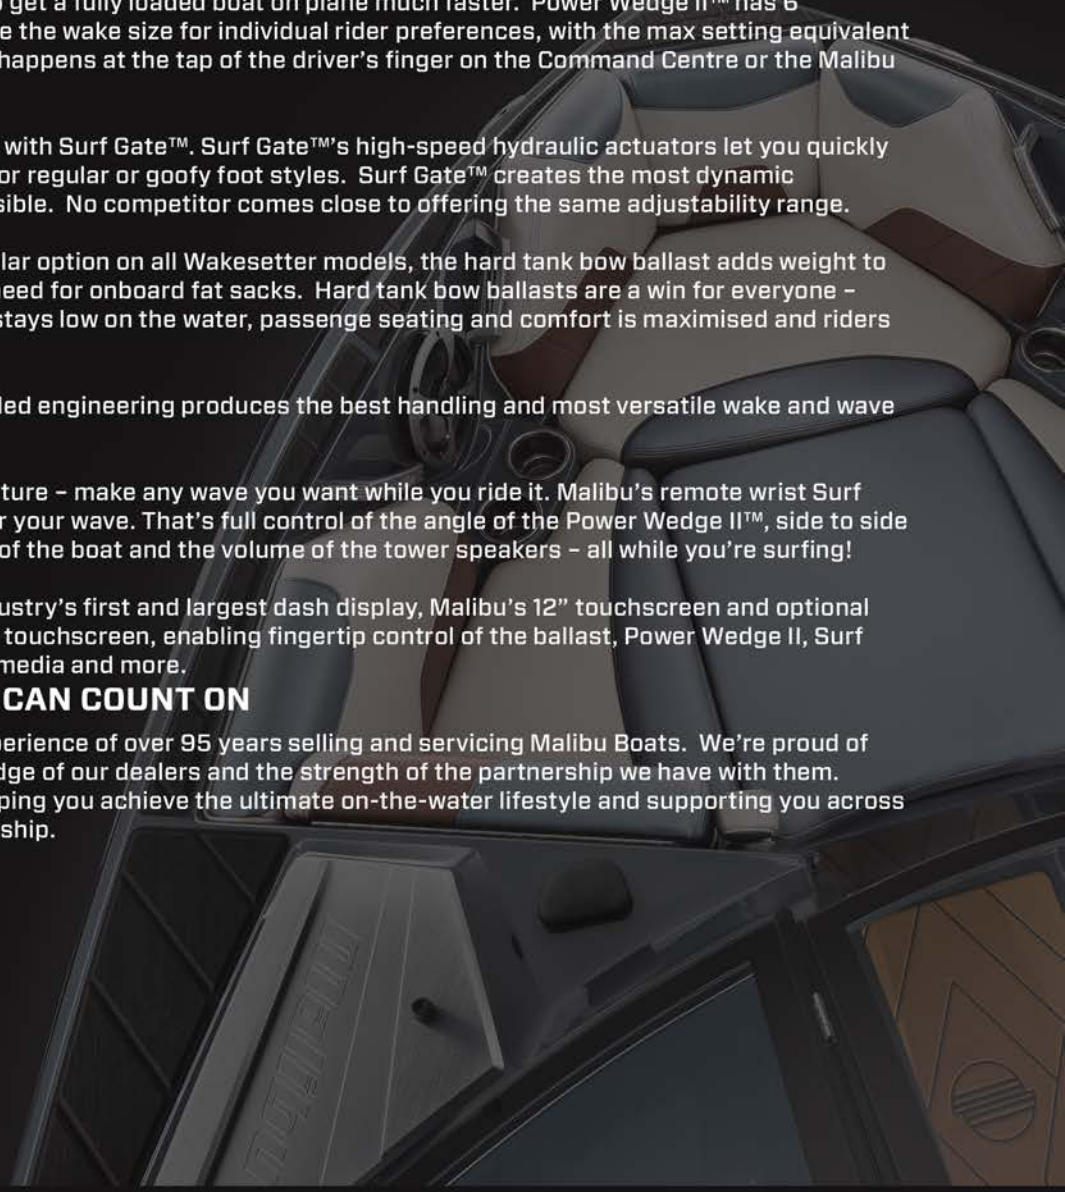

Hull Design - Malibu's unparalleled engineering produces the best handling and most versatile wake and wave maximising hulls in the industry.

Surf Band™ - Welcome to the future - make any wave you want while you ride it. Malibu's remote wrist Surf Band™ allows for full control over your wave. That's full control of the angle of the Power Wedge II™, side to side changes of Surf Gate, the speed of the boat and the volume of the tower speakers - all while you're surfing!

Command Centre - With the industry's first and largest dash display, Malibu's 12" touchscreen and optional Sports Dash joins the existing 7" touchscreen, enabling fingertip control of the ballast, Power Wedge II, Surf Gate, navigation, rider pre-sets, media and more.

DEALER SUPPORT YOU CAN COUNT ON

Our dealers have a combined experience of over 95 years selling and servicing Malibu Boats. We're proud of the experience and deep knowledge of our dealers and the strength of the partnership we have with them. Together we're committed to helping you achieve the ultimate on-the-water lifestyle and supporting you across the lifetime of your Malibu ownership.

AUSTRALIAN BUILT VALUE

Higher quality, not higher cost

Buy Australian made and save tens of thousands of dollars in import costs, when compared to a boat not made in Australia.

Industry best re-sale value

Malibu and Axis retain their value year after year and continue to outperform any other brand. We don't discount from inflated starting RRP's, you'll get the same great value every day.

5-year Australian factory warranty

Fast access to service and parts from a factory located in the same country as you and a warranty fully compliant with stringent Australian consumer laws.

Unparalleled dealer stability

A stable dealer network with over 95 years combined experience in supporting Malibu and Axis owners for the lifetime of their boat ownership.
